--	--	---	--	---

Intermedia's hosted Exchange 2013 lets your company communicate and collaborate more effectively than with any other email platform.

The latest version of the world's leading business email platform

Exchange 2013 delivers enhancements to email, calendars, contacts, chat, content management and more. And it makes these tools as rich and easy-to-use on mobile devices as they are on desktops and laptops.

The cloud saves capital and cuts expenses

There's no need to purchase servers, license software, or spend weeks building or upgrading your infrastructure. Your expenses become predictable per-user monthly fees.

A worry-free cloud experience

With over 1,000,000 users, Intermedia is the #1 provider of hosted Exchange outside of Microsoft itself. Intermedia's worry-free cloud offers a 99.999% uptime SLA, simplified administration, and granular control over your cloud environment. Every account gets expert, complimentary migration and onboarding. Intermedia also offers 24/7/365 email and phone support.

Exchange 2013 improves your growth potential

Intermedia's hosted Exchange 2013 provides the email platform your employees need to extend your potential for growth. It delivers a worry-free experience that lets you maintain your competitive edge—now and into the future.

New features in Exchange 2013

Microsoft Exchange offers a platform for all your business activities, including email, calendars, contacts, chat, content management and more. It aligns your people, makes them more mobile, and enables them to share information better than any other platform. Key enhancements in Exchange 2013 include:

Mobility: Enable the on-the-road productivity that today's businesses demand

Business is no longer confined to the office. Intermedia's hosted Exchange 2013 is designed specifically for touchscreens, mobile usability and offline productivity. It ensures your employees can be efficient regardless of location or device. Even if they're nowhere near an Internet connection.

- Outlook Web Access (OWA) detects your device and automatically adjusts its layout and interface
- OWA renders in the Windows 8 look and feel on laptops, phones and tablets
- Offline access enables email, calendar and contact capabilities even when you're not connected
- HostPilot™ Control Panel lets administrators manage their full cloud environment from any web browser
- HostPilot also offers a mobile app for simple on-the-go administration

Email, calendar, contacts: Enhance your core productivity tools

Intermedia's hosted Exchange 2013 offers exciting new features that improve the way you do business. This includes a simplified calendar interface, integration with LinkedIn and Facebook, email extensibility for embedded maps and more.

- Meetings are simpler to compose and schedule on any device
- Calendars extend beyond the corporate boundaries
- Contacts sync with LinkedIn, Facebook and other services while preventing duplicates
- Fast searching, phonetic search, and nickname search for your contacts
- Email web-app plug-ins like Bing Maps and LinkedIn make emails more impactful
- New app marketplace allows users and administrators to easily add new functionality

Save capital and eliminate worries

It's the best of both worlds: you deploy Exchange 2013 to improve employee collaboration and mobility. And you leverage Intermedia's cloud to save capital and eliminate worries. This gives you more effective employees on the one hand, and a leaner and more focused IT on the other.

Free, expert onboarding and migration

Intermedia simplifies your move to the cloud by doing all the heavy lifting for you—free. The process includes:

- Developing a customized migration plan specific to your needs
- Importing your complete Active Directory as well as each user's mailbox data—including emails, calendar items, and more
- Executing your plan entirely at your direction, with minimal interruption to your end users

Superior 24/7/365 support

Intermedia's world-class customer support is available by phone or email 24/7/365—just in case you need them.

- Every email answered within 1 hour
- Every call picked up within 60 seconds
- Intermedia's level of service exceeds executive support at Fortune 500 Companies
- No outsourcing: you reach fully qualified and empowered Intermedia technicians 24 hours a day

Preserve your capital

Why invest in on-premise servers when you can leverage Intermedia's enterprise-grade datacenters to power your business?

- No hardware to buy and no server software to install
- Shift email costs entirely to your operating budget
- Reinvest capital you'd otherwise sink into on-premise hardware

Reduce your expenses

With a simple monthly per-user fee, you offload all the costs of an on-premise deployment. This lets you:

- Transfer maintenance, security, stability and risk mitigation expenses to Intermedia
- Leverage Intermedia's enterprise-grade datacenters for business continuity and disaster recovery
- Keep your IT talent focused on strategic projects

Assure reliability

Intermedia's cloud gives small businesses the kind of reliability enjoyed by the biggest Fortune 500 companies.

- **Performance.** Intermedia minimizes network latency while maximizing processing capacity.
- **Availability.** Intermedia delivers 99.999% uptime with an industry-leading, financially backed SLA.
- **Data protection and security.** Intermedia's responsibility to protect your data is reflected across every aspect of their cloud.

Balance simplicity and control

Intermedia's HostPilot™ Control Panel lets IT streamline management while retaining full control over your cloud.

- Manage all Intermedia services through a single interface
- Use Intermedia's mobile HostPilot app for management via portable devices
- Empower employees to self-manage mailboxes, account settings, contact information, and more
